## Coffee Mugs

Along with his colleagues Charles and Ray Eames and George Nelson, Alexander Girard was one of the leading figures in American design during the postwar era. While textile design was the primary focus of Girard's oeuvre, he was also admired for his work in the graphic arts as well as furniture, exhibition and interior design. Girard brought a sensuous playfulness to twentieth-century design that had been absent from the austere aesthetic of classic modernism.

created a number of concepts for restaurants that went beyond colour schemes and furnishings to encompass such details as menu cards, matchboxes, tableware and napkins. The motifs featured on the Coffee Mugs have their origins and inspiration in the rich diversity of these environments.
